OTHER COSTS AND INFO:

REVISIONS:

Upon receiving the master, if you feel something is wrong or have a request, you are permitted one (1) revision for *free*.

After the first, price per revision is **EUR 10 (each)***.

*Costs are negotiable depending on the request.

NEW MIXDOWNS:

If you need to send a new mixdown for a track, that will be considered as a **new track**. This means aforementioned service costs apply.

Guidelines and preparation:

- 24 bit audio files in WAV format. Best at 48,000 or 96,000 Hz.
- Leave some headroom in your tracks. Avoid extreme compressors, limiters or maximizers on your master output.
- Make absolutely sure your song is not clipping.
- To avoid sending a new mixdown and pay an additional fee, make sure to listen to your track carefully before sending it for mastering. The process is not a miracle, which means some details can only be fixed in production / mixing.
- Feel free to share some notes in advance about your requirements.

Looking forward to hearing from you!
